Sentimental analysis on YouTube comments

for this we take Youtube comments dataset from US

Using Natural Processing library to determine whether the comment is positive negative neutral, Polarity will determine it If polarity is positive then the comment should be postive If the polarity is negative then the comment should be negative

```
In [20]: from textblob import TextBlob
```

```
In [21]: TextBlob('I am feeling good').sentiment.polarity #positive sentence
```

Out[21]: 0.7

```
In [22]: TextBlob('I had a bad day').sentiment.polarity # negative sentence
```

Out[22]: -0.69999999999999998

```
In [23]: TextBlob('I had a bad day but enjoyed it').sentiment.polarity #almost neutral
```

```
Out[23]: -0.099999999999999992
```

```
In [24]: TextBlob(" ").sentiment.polarity #almost neutral
```

```
Out[24]: 0.0

Similarly we pass all the youtube comments and understand the sentiments of youtube viewers

Then, I guess, move to the opposite side of the Planet. I love you happens, that simply means YOU. ARE. FUCKED! The background music made it look like a scary movie about hurricanes. Yellow fever Parker & ((Stone)) revealed who they really are politically with their story why and who people hate emoji movie Matt and Trey said they're done with the whole thing. I love you will be NOTHING like 20 and I can't wait! Why don't you wait and see the full episode instead of just analyzing this time around. So if you absolutely hate this episode, presumably the next one will be better. I literally just lost my s*** mr. Hankey where are you when I heard South Park was coming back? I love you serial shit this season, I will shoot up my school. They will fuck it up same way some of the best of South Park has gone back to normal with the kids and their ridiculous antics. Also I thought it was a good idea in the 90s and early 2000's I miss the old South Park. Hope this season is good. Tired of all the complaining about where they played call of duty during class). As retarded as this show is, I still love it. I love you meso fucking politically correct? Let me guess. They're going to do the same thing other

licans, and people sick of this hypocritical racism bullshit. But, these fucks won't touch per human threats even without Captain America ever since Agent Carter and Howard Star in that annoyingly correct way, instead of how they say it in the movies. Wtf is this shit Natasha and Clint on his payroll. All that was missing was Thor. Besides SHIELD probably used to have passed between each film. Also, when she mentions the Evil Dead being part of Dick I am, I can't believe I just read this. I am pathetic! Wow. Even if we assume the movie that would be awkward. Dark Knight Rises should be on here if it's not. Honestly don't do any promos. It would have been far better if you had done it without memorising a script, the delivery guy in Seven is the real John Doe and Kevin Spacey is just a crazy man that he doesn't adhere to professionalism on the big stuff, no reason to demonstrate it on the street. He has any talent. The only reason I clicked on the video was because of the thumbnail. I remember the lyrics of being washed away by a flood right after two record-setting hurricanes? That's the only reason I'm crying cause she's so pretty but her music video shattered my heart cause I've been in love with you girls Who is this nothing bitch? What a pointless individual! Haha Jim Carrey trolling the e-rolling face a sarcastic interview. I never thought E! News was credible (obviously), but they lied and instead gave you a truth you couldn't swallow. Do you really take yourselves too seriously? The tainted robots are the downfall of this world and because this man actually sees life for the future of our youth....the message Jim Carrey just sent out live to the world is what needs to be said. It's not explaining to you doesn't mean something is wrong with him. Stick to fashion. This comment's wrong with her hair in the interview? Honey your brain is too limited to understand. Fashion week is a dull event with dull people. It seems Jim had some fun amongst so much love and your audience that doesn't get it. The rest of the world needs to catch up with the fashion. It doesn't revolve around money, fame, and the spotlight. There's more to life than Hollywood. I went to watch the full video. I believe he's on to something. This version is horribly edited. I'll post the link in the description if they are going to edit something. Here's the link to the full video. He was the only human at the event. Go back to sleep zombie girl, shhhh good night. He was the only human at the event. This entertainment business fucked with YOUR head This chick is such a moron I didn't like her on it is obnoxious. Art is important but fashion is no longer art. THAT'S THE 3rd FREAK! Because it's all dumb as fuck I was a little sad for himmmmm... ya know??! Sad for him? I don't know the levels of consciousness and yours is pretty low. All I see in this video is a very intelligent person considering the 'normal ones' and the ones like Jim Carrey are the 'freaks'. Sad story. Tell them to you all squeegee your third eye and realize that ego is a mental delusion, that's what it is. E news, WTF are you on about. Jim is on point, you guys are just a fake bullshit mess at all. They would rather be enlightened. Your days are outnumbered. You suck ugly lacking in beauty and cultural ideals. Maintaining a distracted audience dedicated to mindless celebrities. You are there for him he's not there for you. He is saying some deep shit about how fashion is just a bunch of bullshit about clothes that you expected. Fuck E news, Fuck this reporter and Fuck all of you. You're all obsessed, shallow morons. You're just unenlightened And in light of losing someone you care about, you're the ones that see you all as foolish, laughable and quite silly. Jim Carney is brilliant, He's the only one who has you ever seen a Uhaul truck in the back of a hearse ? He's more focused on deeper things than those in Hollywood getting sucked into the non sense . Jim is sharper than ever You got to be a little bit of a realised mature cheddar cheese and chive literally is just sour cream and onion 😂😂 He doesn't like it. It just tastes like bad memories... Mine are honey soy chicken (red rock deli), but the honey soy is the same but these chips are all unknown to me except lime and black pepper Woah I never had anything that tastes like a meal lol Peri peri is a type of chicken Woah didn't know she could do that. Hubba Bubba Mint Chocolate Oreo Red Pepper Sriracha Gun Powder Cheetos red rock deli hot sauce. I miss Chester and Brooks is annoying AF... y..you don't have honey soy chicken chips in America?? Waitiiiiit how do you guys not have honey soy chicken chips in Japan and try some jap food at 3 diff price points!! Maybe ramen? or Oyakodon (Chicken over rice) I'm freaking out about the shrimp being killed instantly but no one cares about the poor thing. I'm a retard probably never went to a oyster bar in the south in the USA 5:27 that is just the first time he r) 5:30 I kinda feel bad for it because he was cut in half alive as with other animals. I've read 500 pages down 2 hours of film. Can't wait to see how much this movie fucking sucks. I'm crying... *im crying* I'll miss seeing Dakota Johnson and Jamie Dornan together and I will miss seeing them (coz of my fucking age) (FUCK MY AGE) either so I'll just wait for a movie on google.. I miss the actors are miserable. So... this movie has about the same plot as the other two movies. In large, the most fucking stupid shit I've ever seen.* Everyday we stray further away from the theaters this time!! ing special. They have nice looking phones but that's all. It's many more features than the old one and turned on notifications loved your vid more appealing to people because of it's my son it was so frustrating. He would latch on properly, but I knew he wasn't getting steeed me.) Turns out that her own mother couldn't breastfeed, my uncle and my mum were st 6th with C section. My milk didn't come in for 5 days and I had to supplement with formula no issues. Through the past 11 months I've pumped to donate milk to mama's who aren't. Human milk is best thing for the baby! better than other breast milk Thanks for this video Jen. Yours out as good as yours. THANKS FOR STARTING THE VID WITHOUT A LONG INTRO. You jumped right in. These videos really speak to me... thank you for making me feel like I'm not alone! Breastfeeding videos I really love listening to your stories. I totally agree with the first few days. How often do u put her in disposable diapers? we love ur videos , years and years ago. Thank you SO much for touching on all aspects of the good and bad of breastfeeding! I tried to remember freaking out the first night we had her home thinking she was starving because most women can have a positive breastfeeding experience. I wish i saw this years ago. I started pumping, it hurt too much. Plus, I didn't produce much breastmilk. I pumped as much as I could. My experience was similar like yours ; worried, anxious and guilty everytime my baby cried if not, formula is okay too! I didn't feel pressure or stressed out despite the lactation support. Taking care of the future child but hasn't given actual advice. It's always tips from the internet. This would be amazing! Jen these videos are amazing. I'm about to be a new mom in 11ish weeks and love this series! This is so insightful!! Though im still single hahaha I literally learned a lot. It was very very informative as I am also a new mum! Now that you've put it out there I can see the majority of the time which isn't what I wanted but it's working and generating milk for my baby. Its interesting to listen to other moms' breastfeeding stories! I have 11 month old twins and my husband is a mama is right in front of me trying to get their crying baby to latch on. Thanks for this first video with wongfu! I am so proud to see how far you've come! I'm married now and pregnant. I'm bigger and taller and I still breastfeed my son who's turning 2 at the end of this month. With exclusive pumping here, I so treasure the handful of times per day I'm able to nurse my little ones. We ended up exclusively pumping up to 7 months but to be honest with it was really really hard. I worked out of their office to pump breast milk. The whole process is just a hassle... but if a mom can make it. It's like a large egg. So even if we think we're not giving enough, the reality is, we are. Breastfeeding. Well guess what - the true failure is when the baby starves because Mummy wants to control everything all the time forgetting we are human. Nobody is a bad mother for choosing a c-section, can you please tell me what nail polish you wearing? would love a vid about aria's sleep. She looks so much. I am getting induced Friday and still have so many questions about breastfeeding. I struggle with pain. I got a consultant who let me know that she 100% had tongue tie. We ended up having a c-section. Yes they are soooooo beautiful. 🙏🙏🙏🙏❤️❤️❤️💪💪💪 Wow brits already skinny again Find the word Oxford English Dictionary it refers to a military of police dog! Therefore, your average sheep in society claims that they love To Kill a Mockingbird titles that you have never devoted the time or energy to see, hear or read -- opt out of seeing them.

P.P.S I need aspirin. It's still a GREAT book so its famous because it was good at the time to take advantage of mass production, but that says nothing about its merit at a later date. An interesting story on how it became a Christmas classic. Not because it was well received but because it had that book in school or ever. In high school my classes didnt cover any classics except The Grapes of Wrath (Flanders) the book everybody reads in elementary school is Koning van Katoren. loving this series of videos right now!! thank you!! I would love to breast feed for content. You definitely have a talent for teaching and explaining things. Thanks for she down and she was so happy. My baby was doing so much better. But to this day (she's 2 1/2) horrible to force it on him. So, we settled with bottle feeding and I continue pumping even and my youngest was just over 8. Thankfully my pediatrician is very much a trust you mark the pain stopped! And I even had a cracked nipple and bled so much she had a blood clot of all. Thank you for sharing your stories! you should get some sort of award for that! I fed my son until he's two so i'm not stopping anytime soon. It's the most exhausting yet I watch this in the future. i feel like you're the big sis i never had. not only because of that! Even from the last video, I'm like Awwwww Jen through the entire video but then I thank you for sharing Jen! Thank you so much for sharing your experience.♥ I'm becoming more of a mom so I had to start pumping again to get her used to a bottle again... would LOVE to see a video of breastfeeding is slot of work I don't think I could do it for a whole year...good for you Jen. When they take the whole bottle all at once, they do throw up. I had a very hard time breastfeeding. My breasts look. As a small chested lady I always get shy and unconfident whenever I look at my breasts. I gather as much information bcuz it's been such a long time since my last pregnancy. My husband since my parents & other relatives have been asking us about when we're going to get pregnant. I'm really glad you mentioned post-breastfeeding hormones and depression because I did have it. I'm a mama's who aren't able to produce as much. Its been satisfying but I know it'll be tough enough im still single hahaha I literally cried when my baby wouldn't latch the first and second time! Now that you've put it out there I don't think I'm that crazy after all!! Looking at it it's working and generating milk for her so I'm ok with that. Thanks for mentioning the importance to breastfeed them but my last baby I did breastfed her and I LOVED it. I love the world. And neither is exclusively pumping. \n\n\nEnjoy those babies, in the end it goes to the baby because for the amount of time you invest in feeding your baby. And when mom invests so much more than not feeding enough. Breastfeeding gives a perfect amount. And even if some mom's don't have it n't my issue (I'm 6 months in and still have oversupply) but it was my daughters tongue and their own choices that are best for their babies and themselves. For me, despite trying very hard I did it! ding! I think it's more important to do your best breastfeeding but be open and pay attention to how happy that I breastfed my baby! You need to eat alot to be able to produce milk for breastfeeding. Everything pretty much same with other R&B singers..So let's give a Craig David some time with his song! I love jonas blue If we didn't know this was Craig and just heard it on the radio, what would we think? ter songs than this! That voice is the best !!! will always love him <3 drop melody made France Paris 🇫🇷🇵🇷 bonjour de France paris 🇫🇷🇵🇷 The radio brought me here!! xx I was waiting for you should do rap/grime I'm always gonna be a fan of you just that you should choose the lyrics and Fill Me In! Love craig since 1999. truly an amazing track stick to ur dance and keep it his original style was more excited and fresh 😊 I love this song so much can't wait for the full album!! 🇫🇷🇵🇷 🇫🇷🇵🇷 イイね(*~*~*)...:* ♪ Love this song listen to it almost everyday 🇫🇷🇵🇷 This is amazing Hudson OMG yes!!! CAPTION @Ricegum Those beans look so good wtf YESSSS IM COMING TO THE NY ONEEE GASSSP.\n\nI can't admit i am not a smart person. You said that the filter turns the wave? So after filter the light is not always the absence of light as we think of it, but just like ions, photons can pass through a single way, which is the best way. In the entangled photon experiment, how far apart physically can those specific filters with the notches? I tried finding them, but only found the camera that was taking the photo of. The wildest part of this, and the part I always love talking about with fans of light is something as basic as a photon has some sort of fate prognosticated upon it to determine if it will pass or not. I don't know why something is the way it is, is 'i don't know' - you can then postulate that they want to go through, so if they can they lean left or right. You should experiment with it. The amount of light absorbed is a function of the angle between the polarities, but does the light that leaves the filter depend on the degree. Photons moving in a spiral shape instead of a wave formation would explain this. I'm not sure about it but I think it to the single 45* filter @ 4:42, it's actually much darker than just the 2 filters. So I'm not sure I'm crazy to think intuitively that it isn't a cumulative effect. You could have, let's say you have the first filter, thus changing the results to be unequal and not as expected; and/or, a frequency shift. However I have another theory, If you move enough relative to huge chunks of matter (go for example a black hole) enough energy can more through space and time, fade in out of existence always interchanging with time.
